### GMMV Endorsement

#### Voting Objective – Tactical

We endorse the Green candidate, Ekua Bayunu, because:

- The objective is to demonstrate to Labour the support is withdrawn by local Muslims.
- Labour is overwhelmingly predicted to win, Labour stronghold.
- Both LibDem candidate is a local councillor, and Green candidates has marginal strong support base (from previous local election results)
- Both Green party and LibDem party has consistently called for a Ceasefire in Gaza.
- Significant number of candidates, with no evidence of strong community backing, for independent candidates, likely to disperse the non-labour votes.
